Dx Coding & Documentation – September 27<sup>th</sup> & 29<sup>th</sup>

# What are the types and eligibility of AWVs?

Visit Type	Code	Eligibility for MSSP / MA
<b>Welcome to Medicare (IPPE)</b>	Private Practice: G0402 Community Health Center (CHC): G0468 + G0402	Medicare Shared Savings Program (MSSP) + Medicare Advantage (MA): <u>Anytime during first 12 months of Medicare coverage</u> (MSSP or MA)
<b>Initial AWV</b>	Private Practice: G0438 CHC: G0468 + G0438	MSSP + MA: <u>Anytime during the year</u> for any patient that has MSSP or MA coverage that is outside the first 12-months of Medicare (MSSP or MA) coverage.
<b>Subsequent AWV</b>	Private Practice: G0439 CHC: G0468 + G0439	<b><i>First rendering after G0402/G0438:</i></b> MSSP: 365 days after the G0402 or G0438 was billed. MA: Jan 1 of the subsequent year.  <b><i>After G0439:</i></b> MSSP: <u>The first day of the same month of the subsequent year</u> after most recent AWV. MA: Jan 1 of the subsequent year.

# 2023 Core 4 Performance - Details

\*LUM = Lives Under Management = # of traditional Medicare patients

\*WV % YTD = % eligible patients who had an AWV in the current calendar year

\*WV % Rolling 12 = % eligible patients who are current with their AWV as of 5/19/23. *Example: A patient who had an AWV on 03/20/2019 is considered Current with their AWV until 03/01/2020 (end of year target = 70%)*

\*Dx Resolved YTD = % of suggested Dx in the Daily Huddle that have been billed (by practice or outside) or dismissed (**end of year target = 75%**)

\*ED Outreach Attempt w/in 7 days = % ED discharges on the Aledade worklist that were followed up/resolved within 7 days of discharge (**end of year target = 65%**)

\*TCM % = % of eligible discharges that had a TCM completed within 14 days of discharge (**end of year target = 40%**)

\*\* (For CHCs, Aledade gives TCM performance credit for E&M codes billed in the 7-calendar day post-discharge window if not billing 99495/99496)
