Comments:

1. I believe Board engagement and impact has continued to wax strong, even through a global pandemic. I believe we will see even stronger engagement and impact when there is the opportunity for in-person collaboration and activities. I hope to become more proactive in representing RVHDC within the Community in my capacity as a Board member.
 2. Even in the midst of all that the community and the world is going through, the Clinic is still holding on with its best help for our community.
 3. Currently I am not on a committee. I also need to coordinate a personal donation to RVH&DC. I am happy to do so at your earliest convenience.
 4. I appreciate the diverse group that makes up our board with various roles of the community. We can make well-rounded decisions and it seems like we, as a board, work very well together and come up with meaningful solutions. This speaks highly of the leadership at River Valley as well.
 5. Virtual meetings, due to the pandemic, have hindered more open discussion that I feel should take place at times more frequently.
 6. Jim, Barb, and Max do an excellent job from their day-to-day work to educating and answering all board questions.
 7. I need to sign up for a committee.
 8. In response to #8 where I disagree, I am not participating on this committee, however I do support the program.
 9. In response to #15 Legal representation on the Board would be a plus, however, not easy to fill.
 10. A fifth consideration labeled "Not Sure" could be added between "agree" and "disagree" This would indicate that board members are not clear about the statement.
